

UNITED WAY
Anchorage

OPENING DOORS TO OPPORTUNITY

For nearly 70 years, we've brought people, ideas, and resources together to create solutions that empower Alaskans to thrive. Informed by community input, we focus on financial security, healthy community, and youth opportunity.

FINANCIAL SECURITY

Alaskans with steady housing, jobs, and resources have stability today and opportunities tomorrow. We're creating strong financial futures for every generation.

2,405 Alaskans received job-skills training and job-search assistance in our funded partners' programs.

388 Alaskans remained in their rental units due to one-time payments made by our Eviction Diversion program.

HEALTHY COMMUNITY

When people can access quality, affordable health care and resources, they lead healthier, more secure lives. We're improving health and well-being for all Alaskans.

25,594 Alaskans received free health screenings, thanks to programs that our funded partners run.

325 Caregivers were offered resource referrals since fall 2024 because of our partnership with AARP.

YOUTH OPPORTUNITY

Learning opportunities and skills development empower youth to achieve lifelong success. We're helping young Alaskans realize their potential and become successful.

10,100 spots in funded partner programs allowed kids to engage in learning and development activities.

600+ Anchorage School District students have graduated, thanks to our help with Back on Track.

ALASKA 211

From everyday needs to big challenges, our free statewide helpline connects people to resources and services available in their local communities.

593,006 resource and service connections made by our call center and on-line database since 2007.

1,086 agencies are listed in our database, which offer altogether over 8,000 resources and services.
