## HELPING

My **total gift** can help...

Invest in young Alaskans catching up on credits with wraparound support, like a month of classroom snacks and incentives or caps and gowns for two graduates.

Keep Anchorage families warm by covering past-due utility bills for two households, which prevents disconnection during the coldest months.

Prevent eviction for Alaskans by covering a month of rent for tenants who have experienced job loss, unexpected expenses, or sudden illnesses.

Power community resource connection by supporting the technology that keeps the statewide Alaska 211 helpline running for two weeks.
